can we please not cut our collective nose to spite our collective face

Keep the Tax Incentive Program!!

this is crucial. we have a movie to shoot in NYC this year. without the tax credit, we're going to michigan or canada for sure.

Please sign

please don't stop filming in NYC

Film production makes NYC money in more taxes. Eliminating a source of revenue for the state in these tough times is just plain stupid.
THE JIM FLYNN AGENCY

protect our own, we can not leave our friends and families out in the cold.

we bring into the state and city jobs and revenue

Do the math it's not tough to figure out

cutting this tax program is equivalent to putting thousands on the unemployment line

I sell products to the film & television industry in NY and you will put me out of business.

This action has hurt the industry in the past and we cannot afford to lose more jobs to Toronto.

Please sign this crucial legislation

543 Alicia Van Couvering This is a green industry that does nothing but expand and retain jobs! Save my job!

Save!

Please don't let short term budget woes undercut long term growth goals for the state of New York.

The film industry is very mobile. We must compete with other states.

NYC would not be NYC without the filming crews around!

These tickets are expensive enough

Please dont cut the funding....

There is a direct affect on the economy in NYC due to the tax credits.
save N.Y. film tax credits please.

HELP US SAVE THIS VALUABLE JOB CREATING PROGRAM!

Save Film in NYC!

economy are taken away. Maybe we should consider a national vote to lower the salaries and perks in Washington. See how you all feel about that!

As a struggling actor, I REALLY appreciate this - Thanks!

Now is not the time to let growth opportunities pass us by. Please consider this an investment in the future of this state.

DO what is right to maintain this program.

É

PLEASE re-sign this bill and keep this offer on the table, we need work and jobs! We must continue to encourage film & tv productions to come to NYC, too many people are and have been out of work for too long!

My entire household income is dependent on work in the Film and Television Industry. Please support our industry.
It would be a major loss to the state in terms of both tax revenue via employees of productions as well as revenue via industries which service the business.

consider how important these film tax credits are to a robust NYC, both aesthetically and economically...
Save the Tax Credits!
Member Local 764, Wardrobe

remember that this credit brings in money. without it, film and television production will flee again, and that sucking sound will be the financial black hole created by short-sightedness.

film technician, IATSTE Local 52
Don't make the unemployment rate go up.

keep us working in NY.

Save New York State's TV and Film Tax Credits PLEASE

We need incentives to keep film production alive in New York!

One would hope that funds could be allocated to at least return to the 10% State credit to forestall the near immediate exodus of shows from NYS.

É

Save the credit! It supports banking in NY and acts as a stimulus that pays for itself quickly. Don't be foolish!
why turn away millions for all of us

these harsh financial times, makes no sense. Thank you.

Motion Picture Technician, NYS taxpayer, NYC homeowner

We really need this!

I work in the Film and TV Business. It took a long time to finally convince the West Coast that NY is an affordable place to make movies and TV. Lets keep it that way.

Please continue to fund this program which has brought so much work to thousands of us working in film and television in NY.

This brings a lot of money & jobs to the state. I am shooting 10 million dollar film in the spring 2010 and the location depends on the tax credit. I would love nothing more than to shoot in NY... the greatest city in the world...

This pays itself back, it makes total fiscal sense.

Please it is working!

It's absolutely ridiculous to take revenue away from NY at such a crucial time! Save the TV and Film Tax Credits!!

Please

Keep Films and T.V. in N.Y.C.!!!!

The first thing a studio or financier asks a producer is if he is shooting in a state with tax credits. If he says no, he doesn't get a dime for production. No production no jobs. No jobs no votes.

Actor/Screen Play Writer/Producer

This is not an expense, but a real return in revenue and employment for NYS
Keep New York employed...when we travel out of state we spend dollars elsewhere and grow our carbon footprint!!! ThinK Green for the planet and the pocket!!!

There is finally a good amount of television production in NYC, and the credit MORE than paid for itself...PLEASE keep it around.

Producer and NYC resident

Now is hardly the time to jeopardize a program that attracts jobs to NY! What can you be thinking??

Please heed our pleas!

We need this now more than ever! Please do the right thing!

This keeps lots of people working, not just the film crews, but the local restaurants as well!

President, AFTRA NY, 18,000 tax-paying, voting members strong.

communities & local busines owners. Cutting the tax credit would force production companies to look elsewhere to produce their product. Keep the Tax Credit, Keep Production in NY!!

these tax incentives are essential to my business and the jobs of many I work with.

Highly support the continuation of the tax credits to keep people working

Please keep New York working.

This is one of the tax credits that have been proven to generate jobs, spending and revenues. Ending the program would have a negative impact on the state's economy.

È

Kill the tax break and kill film jobs in New York

noooooo!

please support the arts: Save NY State Film & TV Tax credit ! PLEASE!

please keep it alive. Thank you

New York's filmmaking infrastructure if finally taking root. Cutting back now would set everything back to square one.

TV/Film Accountant

Please keep the tax incentives. Keep SAG work in NY

Please keep the incentives and credits!!

We Need These Credits To Keep The Business Here !
keep film work in nyc. we had almost as many set days as Los Angeles this past year. I cant imagine the benefits dont outweigh the costs
Film Production Will Go To Another City if We Don't Pass This Bill

A true stimulus

It's foolish to take away this incentive at such a critical moment. The entertainment industry continues to operate, albeit with great fragility.

Please save the Tax credits, they don't cost the state anything upfront and create so much wealth for us all.

Cutting tax credits in film with cost jobs - lots of them!

The incentives program pays dividends that far exceed the cost of the rebates. In this tough economic climate, we cannot afford to lose more jobs. Please renew the incentives program.
I fuuly support this pitition, now is now the time to drive NY jobs to other states or countries

than is saved.

of New York and needs to remain strong.
Save our industry and jobs!
I APPROVED THE TAX CREDIT

that the tax incentive will be intact when we reach the finish line. Without distribution in place, the incentive is crucial for independents to take on the risk in order to pursue their passion. Please save our film tax incentive and keep productions here. Thank You.

My family depends on this action. Please consider this choice carefully.

Help "our" industry...PLEASE

This is vital for both NY and the arts

Mr. Governor....not a good idea. You really should be rethinking about you are doing.

I am a mother of 3 whose income depends on my husbands work in the television and film industry. We were both born and raised in NY state but may be forced to move to the west coast if production drastically slows in New York. Thank you for your consideration.

And can you talk to Bloomberg about getting Scouting Parking Tags back, please.

It would be such a terrible waste of what has already been accomplished not to refund this program.

This is a 'No Brainer' Filming in NYC benefits all types of Business in NYC

It is important to keep the incentives alive as other states are introducing competitive offers which could result in New York losing the business.

look to for help. Governor Paterson, please secure the many lives dependent on this industry by continuing to support this tax credit program.

(I am a working film/TV composer in the NY Metro area)

NY is one of the biggest markets for tv and film industry.

This incentive makes the state MILLIONS of dollars

these tax credits, jobs will leave our state and revenue stream that we have been enjoying will be another state's gain. This is precisely the kind of stimulus that our state needs and it has a proven track record of success.

keep New York strong!
There have been a number of film crews in our neighborhood over the last few years. They are very professional and respectful. I welcome more of this activity. Keep the economy going!

taxes from the many thousands of us whose livelihoods are dependent on this industry, you'd prefer to borrow millions more from the federal government to pay our unemployment checks. PLEASE... the math is painfully obvious... please reconsider your position on this policy.
Production companies help the hospitality industry by providing room and food revenue.

As you find your feet as Governor help us find ours!

Pres. I.A.T.S.E. Local 798, a billion dollar industry is in the balance here.
a no-brainer

please keep TV/Film jobs in NY!

Please save the NY Tv & Film tax credits, it provides jobs for many people. Thank you!

New York

incentives create jobs/jobs create revenue/revenue=tax dollars

Refund this program and keep jobs in NY State.
Without this incentive thousands of New Yorkers will lose their jobs.

Please help and pass. Thank you.
Thank you for considering this petition.
Having the tax credit in place is a win a win. Productions help the city's economy and create jobs.

We must keep the film tax credits. Keep Film and TV production alive here in NY!!

Please keep us competitive and keep NY jobs in NY
Of all the places to cut the budget, the Arts are surely the wrong place to start.

It's so difficult to thrive in our field. Please don't erase opportunity. The program generates jobs and pays for itself!!! Please don't do this.....

please keep our work here and going strong! thank you.

Why give jobs to LA or Vancouver? Keep them here.
30 Rock enjoys being in NYC.

Please keep jobs in New York.

Production Office PA living in Brooklyn

it's important to keep our economy solvent!!

Unlike most states, New York makes more money then it loses from these Tax Credits. Keep people employed, keep tourist dreaming of New York, and keep us in the Pictures!

don't let Canada win! NY needs more production.
graduated from college and had no job, not to mention the people who facilitate these programs helped my life get better. PLEASE DO NOT DO AWAY WITH THIS PROGRAM!

Please help keep the TV/Film industry in NY! We need the work!
Please help keep the TV/Film industry in NY! We need the work!

Film production is good for the creative economy

The film business is good for New York State. It brings in money and keeps us culturally relevant to the rest of America, which feeds into our tourism and other industries.

Locations Department

The tax credit is extremely important in bringing and keeping jobs in New York City. The tax credit is largely responsible for the keeping the film industry functional in NYC. Please continue this very successful program. Keep it in New York! Or lose lots of local jobs. The program pays for itself!

This is ridiculous. The tax incentives are vital for a booming film industry in NY. Take away the tax breaks and your taking away not only jobs but also profitable revenue from NY. Why cut a program that brings money to NY.

too many jobs and So much revenue to be saved...

do you know how much work went to connecticut in 07 before this went into effect. huge.

Please consider how many jobs are created and beneficial this culture and industry is to the state and our lives in general.

The Film and Television industry is a major employer in our state offering a livelihood to an enormous range of people and has a significant impact on related businesses and locations where productions base. Please keep these jobs and this money recirculating in our state.

please do not cut this tax incentive.

Please support what so many of us have worked so hard to achieve.

Without these tax credits, there will be very little work in this state for the entertainment community, outside of the stage community. Not only will you lose residents, but the ones that remain will be out on the street looking for work and therefore will increase the unemployment rolls.

The percentage of return far exceeds the the tax credit. Don't be penny wise and pound foolish.

This industry is huge income for the state that could go elsewhere.

Don't destroy NYS's Tax Credits!

Producer, Gossip Girl

This is SO IMPORTANT to SO MANY!

taxpayer's money.

production tax credits and you will be make a huge mistake.

As a producer in NY, I KNOW that people decide based on these tax incentives whether to shoot in NY or to shoot elsewhere - these are REAL jobs. NYC needs to keep it edge in the industry

The tax credit directly effects my income being that I am a freelance editor when shooting slows down so does my work.

WE MUST KEEP OUR PEOPLE WORKING
Draves

does NY really want that to happen?

I need to make a living!!! All the jobs are now going to CT, NJ, PA and MA. Please help me live and work near my family!
All of us in the production world rely on this to live and be able to work consistently. PLEASE keep funding this programme. Its made a huge difference.
It is VITAL to preserve these credits or we will lose a significant amount of business both main and ancillary to locations offering better terms.

I brought a film to NY this past fall. It was set in Massachusetts, but we moved it to NY and employed many wonderful people and made a great film. I think you will seriously damage the ability of films to shoot in New York and employ New Yorkers

I ask that you do what is right, sir.

we absolutely need it

PLEASE SAVE OUR NYS FILM & TV INDUSTRY!!

don't kill NYS film business!
Please renew the NY tax incentive, the TV show, Fringe and their money will leave NY like other productions. We do not need more jobs lost in this days.

Everyone in film picks their location to shoot because of tax credits, NY needs to give tax credits!

Leave the credits alone. They have helped create jobs in NY.

Please keep all tax incentives. Other states are now giving even more & we must compete.

Please save this credit, it has helped us grow our company from 6 employees to 10 employees

Filmdirector

VP Video Operation
keeping the films and TV here will bring us money for the state

Cutting this tax cut would drive productions out of NYC and cause our freelancers to really suffer.

Suggestion to gov't : Stop Spending Money that is not yours, and end the federal reserve and other cartelized money creation or just go away.

in these hard economic times, its not going to help taking away a strengthing foudation in one of the few still prospering industries. Instead this will just be making a very difficult situation, even more difficult.

NYC film is crucial to economy!
This money will come back to the state quickly...

We need the tax incentive it is generating jobs. The tax incentive is a win win.

NOW IS NOT THE TIME TO LOSE WORK IN OUR STATE!

This is a must for our economic survival!

Save the Credits!

industry brings to the businesspeople of NYC
Let's work together to keep NYers working!

You absolutely need to keep these Tax Credits in place. This generated more revenue then the credits they gave back and created thousands of jobs in NY which indirectly generates income to other businesses!!

I work in the film industry and divide my time between New York and Los Angeles. Tax credits for filmmakers in NY are crucial to both our economies!

tv and film provide thousands jobs! WISE UP!!!
global companies letting people go. Though it doesn't appear as a concrete number, it's there. Literally thousands of jobs will be lost. Every tier feature film employs hundreds of workers and contributes up to millions directly into the city and state's economy. Please strongly consider this move.

The Film and TV business is vital to NYC's economy and culture!
THIS TAX CREDIT MUST SAVED !!!!

don't be stupid.

www.makeup-artist.com

Please, keep production in New York.

I WITNESSED THIS PROGRAM FIRST HAND AND IT HAS GREAT AFFECTS ON THE ECONOMY AND PRODUCES A GRAT AMOUNT OF JOBS

nyc is the epicenter of the world -- of course we need it to be put on film and preserved!

Definitely not the time to cut such funding.

Just remember when your up for re-election, that you have taken jobs away from the entertainment industry. WE WILL NOT FORGET!

Jobs Jobs Jobs keep the tax credits and save NY State jobs

I support this petition.

An aspiring Dierctor of Photography

THE PROGRAM BENEFITS THE CITY'S MORALE AND ECONOMY GREATLY.

I strongly recommend that you consider this issue.

Yep a good idea

The tax incentive package brings in millions of dollars in revenue. Don't be short sighted during this economic crisis. The incentives provide jobs and we cannot afford to have unemployment rise to double digits. Please keep the NYC film/ and TV tax incentives program!

"Fringe " will leave NY if the incentives are not renewed.

Tax incentives create profits for the state in the short term and long term.

I love working in NY and love working in this industry

Lives and Livelihoods depend on the work brought here through film and TV productions. Don't put NY back on the bottom of the locations list. Please!

The City of Boston is thanking you now!

This program pays for itself and creates jobs!

Lower taxes = jobs stimulation

gaffer, Rescue Me IATSE local 52

This is how I feed my Family!!!!

our city needs the work.

This is a no-brainer!
 This is of very great importance for my survival as well as my fellow performers and technical artists that work in film industry in New York State.

this is a vital part to getting the filming industry in New York, please sign it.

With digital media, there is no reason why New York can't be as productive as Los Angeles

These tax credits have a multiplier effect on money spent in the state and the city. Consequently, it would be short sighted to discontinue them.
Please keep the TV work coming!

Thanks for keeping arts in the foreground of our country's future.

All of my work this year as a Scenic Artist in Local 829 is directly related to the tax benefits that have brought work to NYC.
É

with the economy being the way it is, the last thing we need is more unemployment.

As a DGA Location Mgr in NYC I can sincerely say that the Tax Incentives have made a huge difference in the amount of film production! It's a program that's bolstered work for many people and provided a big boost to New York revenues. Please keep it going. Thank you.

ridiculous

NY State needs this industry to thrive, please help.
KEEP IT IN NY!!!!

remain in the city we love and practice our craft.

It is vitally important to keep TV & film production in NY
We have to keep jobs and businesses in New York
jobs for New Yorkers; revenue for the state

Please keep the film and television industry in NY
Please keep us all working here in NYC.

PLEASE SAVE THIS

Please Save These Tax Credits.
SAVE IT NOW

We need to do all we can to attract business to NY and to generate jobs in general

I have been teaching film production for more than 20 years at Brooklyn College. To cut these tax credits now would greatly reduce the chances of my students getting a start in the film business, since the film business will simply go elsewhere.

This is essential to my continued employment
This industry is essential to our economy!

We need the film industry in New York, please.

Please save the tax credits -- New York's artists need work!

This is vital, we have weathered the WGA strike, and the fear of the SAG strike, being kept out of work by both and now, just as the market is about to return we are going to drive shows away from NY. This cannot be allowed to happen.
please dont terminate something that brings joy to so many and food on the table for some

please

Please keep us working in New York.
Please keep us working in New York.

I am a local young filmmaker in buffalo and believe that if this occurs it would be a terrible decision, be it that Fmr. Senator Hillary Clinton of NY named this to be the year of the arts!

We need it to survive!!!

without tons of jobs and revenue will be lost to NY
Need I say More? I am a former graduate from the "Made In New York film Program" which is funded by The Tax Break. I am now very successful due to this program and without it I don't know where I would be career wise. So I ask please do what you can.

SAVE THE ARTS!!!!

New York is known around the world for its film & TV industry it should stay that way.

You are not creating tax revenue if you are repelling business.

keep this industry strong!!

Please

This CREATES JOBS. Films set in NY MAKES it a TOURIST destination!
Please don't cut the NYC tax rebate program for film and television. You will most certainly endanger the countless middle class actors, filmmakers, crew members that depend on film/TV production in NYC. If you cut it, they will go elsewhere. And you know this.

Please think about all the people who made sacrifices and moved to NY for an opportunity to work in Film and TV.

Please save our film industry

Unqualified support!

Proud member of IATSE

Not all tax credits are bad in tough economic times. Keep this one and keep jobs here in NY!

this is a tough city but with many talented people. You want to keep them here if you want NYC to flourish as one of the media capitals of the world

I'm a producer who works in the state of NY. Since the incentive program began, my livelihood has blossomed as has many others. I know for a fact many hundreds of businesses and individuals benefit from this program. Please keep it going. Thank you! JB

please help save this tax credit!

These industries need support, also!

must work to eat, please sign this

SAG MEMBER #043595

I am an up-and-coming film composer. This will greatly help my in my business and personal life.

New York State will get more back in tax revenue than it loses by giving the tax break. Producers will go elsewhere if New York doesn't give the tax break, and states offering it will get their business and the tax revenue.

it would be a disgrace to loose the NYC film industry to another market.

We all need the film business here in NYC. There are many taxes you will lose if the work leaves NY as well as business that are dependant on the income from these productions

please continue to help... the economy is rough enough without all these jobs disappearing... i'm a cinematographer and assistant camera when i need to be for money... which is looking like it'll become more of an issue! thanks...

It is so important to keep tax credits so producers will continue to use NYC as their East Coast back lot. So many jobs and so much ancillary income. Please keep the tax credits.

Please help the arts stay in New York, Gov. Patterson!

PLEASE HELP KEEP NEW YORK STATE A WORLDWIDE MEDIA CAPITOL FOR THE GOOD OF ALL. THANK YOU!

Dear Governor Patterson, now is NOT the time to be taking away tax credits that create jobs in this industry! Please be wise and keep NY working!
Set Costumer

we need the jobs this tax cut provides. NY is quickly becoming a city that has little to do with media.

NY needs this industry more than ever!

Please consider the consequences!

If we don't save the film program here in New York there will be thousands out of work.
Keep NY the best place to produce for film & TV!

Please support our exceptional NY based films
I'm a proud NYC actor, and this directly affects my livelihood and those of my many colleagues.

REALLY!?!?!? WE NEED JOBS!!
This would keep production companies for choosing New York to film and so many jobs would be lost, etc.

This is a job- and revenue-creating tax credit. keep it!

Don't cut the tax credit!!

Please keep the credits

The TV and Film industries add a great deal to th coffers of the state and local business.

These tax credits are crucial to attract new productions and retain current ones in the city. They bring a wealth of new jobs and opportunities. Now is not the time Governor Patterson!

Let reason prevail!

Please save the tax credits! We all need the work!

Do the right thing!

please

Please!

Please help save jobs

our familys depend on working in ny and the tax credit is the reason we work now. Keep it. Refund it and keep a positive industry working. WE have all worked hard for this incentive, why take it away from us. Production then will go elsewhere.

hear hear!

Please don't take this away! If you do we'll lose so much work! And we'll never get it back!

pls. do continue the good work that NY has done for people in film/tv over the past few years

Please be smart about this, use history as an example and look to what Kotch screwed up!

Governor Patterson - PLEASE don't make these cuts. The producers will stop shooting in NYC and State and this will be disasterous for actors who rely on these jobs. The unemployment rate is already high -- take these tax incentives away and it will be off the charts!

NY State's TV and Film Tax Credit program pays for itself AND creates jobs! There's no reason to do away with it. Please. Thank you.

what would NY be without film and tv???

Save our jobs

Governor Patterson - PLEASE don't make these cuts. The producers will stop shooting in NYC and State and this will be disasterous for actors who rely on these jobs. The unemployment rate is already high -- take these tax incentives away and it will be off the charts!

Keep production working for NYC!

Proud member: AFTRA, AFM, AEA

It is crucial to maintain successful programs that keep jobs in NYC for the arts community. The film tax credits have been important for keeping N.Y. production booming and have kept thousands of jobs in NY. Please save the TV & Film Tax Credits.

It's the bottom line. Governor
save new york state's tvand film tax credits we need the jobs that the industry brings to the artistic community .

Please, Governor, don't be penny wise and pound foolish on this !

Please don't cut the film tax credit. Too many people rely on this for work. Will be a disaster

Please save our jobs!

Continue to create jobs in NY with these tax credits

Other states are getting more and more amazing tax incentives to shoot and our talent and big studios should remain here (for East Coast).

New York is made for movies!! Don't ruin our legacy!
new york's film industry and the jobs within it will topple without tax incentives for producers to make their projects in NY

This is just the sort of thing our state needs a source of really good paying jobs and people who spend what they earn. Keep it going your honor.

Save Jobs. Don't send them to Canada

Save Filmmaking in NYC
Immediate Job Creation
this tax credit keeps nyers working!

The loss of these tax credits will surely create more unemployment here in NYC, placing an even greater burden on the unemployment insurance system, not to mention how the loss of revenue from theTV and Film industry will further devastate the city's financial condition.
i am an actor,who needs to work. we are all relying on

Your doing a good job..don't let them get you down.thank you, john hendrix
Please help fund one of the most important parts of NY Culture and Economy.

Please do not get rid of this valuable economic resource!!

It's not time to cut anything in this industry. The arts are just as important and it provides for a LOT of jobs!!!

This incentive brings back many times it's cost, and to many other industries as well as ours.

love and call home. Please preserve the tax credits for TV and film--the money that these productions spend in New York funds many of the even smaller projects that local artists produce.

These tax credits create state revenue without them a number of productions will shoot elsewhere .

HAVING a tax break brings tourists because they see this beautiful city on TV!

resulting in a far lower tax revenue, not to mention a profoundly adverse knock on effect for the city's economy. It would be a regrettable, grave and foolish mistake.

more art more thinking outside the box and we need...

Film Editor, Motion Picture Editors Guild

Please keep the credits for film and tv.

Thank you
we need to keep NY production ,these credits pay for themselves ten fold. we can't afford to lose the production that has finally returned to New York and is growing due to the tax credits/

No more cuts. I'm hurt..in'

Tax incentives are actually essential to bring commercials and films into the city. The last great film exodus occurred because NY had priced itself out of the market. Reducing or eliminating these credits will have the same effect or worse.

Tax breaks have brought more of the industry projects here to New York, thus employing more workers, and bringing in more money. Please keep us at work!!

Please keep us working by restoring tax credits
This is what is meant by job stimulus.

actors, technicians and other typed of skilled workers.

Now is NOT the time to cut programs that actually create jobs.

NY needs film & film needs NY

NY state is my favorite place to work and I think the tax breaks are beneficial to our industry as well as the state.
Keep jobs and tax income..... don't kick us in the face twice

É
Cutting jobs does not help the economy - it's hurts it. More people on unemployment is a drain to society.

I support tjis positiom. Work in the film industry provides jobs in New York City and New York State and is important to our economic recovery.

I believe that the return to risk ratio is too great to get rid of this.

We finally have production in New York don't loose it to Government greed.
Cut spending that doesn't cut jobs, not the film and TV credit. It's taken NYC a long time to get back in the game; don't throw out the baby with the bathwater, please.

Without Media we lose freedom of speech

My family would be out of work without New York's NY State's TV/Film Tax Credits. We need to keep the shows and movies filming here.

My livelihood depends on NYS's tax credits keeping the work here.
We've worked too hard to develop this industry's "2nd home" here. Don't let slip away!

Please help us keep New Yorkers employed. Thank you.

Please keep the work from going to Canada

Please save the jobs of these great Americans dear Sir! Love of your fellow man and caring for their needs is the same as caring and loving oneself because they could be you. Thanks for helping Sir! L.G.N.M
this is an important part of our survival...don't cut it, please

have a strong entertainment industry in New York.

The lost business to NY from removing the incentives, will eclipse the lost taxes of leaving it in.

Yess!!!!!!!!!!!!

Let's Keep Them In New York

Governor Paterson, don't be penny wise and pound foolish.

It certainly would not make sense to stop these tax credits
